

Erply Connector Installation Guide

BETA

Installation of Erply Connector by Eepohs

! NB! It may be necessary to uninstall old version first!

Installing via Magento Connect in browser

1. Log in to Magento backend.
2. Go to System -> Magento Connect -> Magento Connect Manager.
3. Log in to Magento Connect Manager.
4. Go to Magento Connect and search for Erply Connector.

Install New Extensions

1 Search for modules via **Magento Connect.**

2 Paste extension key to install: **Install**

You will find "Inventory Management for Magento by Erply". Click on "Install Now" button and follow instructions.

Copy extension Key from Magento Connect and switch back to Magento Connect Manager.

Paste Key and click on "Install" button.

You may need to change Stability Settings from Settings tab. Choose "Beta" as Preferred State from Settings tab and save settings.

You can check extension version and click on Proceed.

Erply Connector then installs itself to Your Magento. Refresh page and You see eepohs_erply extension in Your Magento's extensions list.

eepohs_erply	2.0.1 (beta)	<input type="text"/>	Beta release of Inventory Management for Magento by Erply. This extension has been created by Eepohs Ltd.
--------------	--------------	----------------------	---
